

# Revelation trailer stage

## Keynote

### All-in-one design

Maltbury's Revelation trailer stage offers you the chance to build a covered stage virtually anywhere you can drive a vehicle. And all in under an hour.

Stage, lighting truss, covers, handrails, steps are all there - and the price is a revelation too.

## System

Built to international standards by specialist trailer manufacturers, the Revelation is quality- and performance-tested in the factory so there are no nasty surprises when it hits the road.

### Stage

The base section is made up of three parts: the fixed central area and a fold-down stage extension on each side. The extensions are aluminium-framed with anti-slip, weatherproof board on top. Once down they can be levelled to match the central section.

### Roof

The roof is also made in three parts and is raised with hydraulic assistance.

### Operation

Setting up the Revelation is a simple job taking less than an hour. Lights, speakers and banners can be rigged before the truss is raised - making it quicker and easier for everyone.

## Technical

### Standard specifications

Frame	Galvanised steel	
Roof	Aluminium truss	
Stage surface	18mm phenolic-coated ply	
Weight (towing)	3 tonnes	
Stage loading	7.5 tonnes	
Roof loading	1.6 tonnes	
Dimensions		
	Stage	Trailer
Length	7.2m	8.9m
Width	6.0m	2.5m
Height	<4.3m	4.1m
